

Integra® Monopolar Range

5MM Laparoscopic Monopolar Modular Instruments

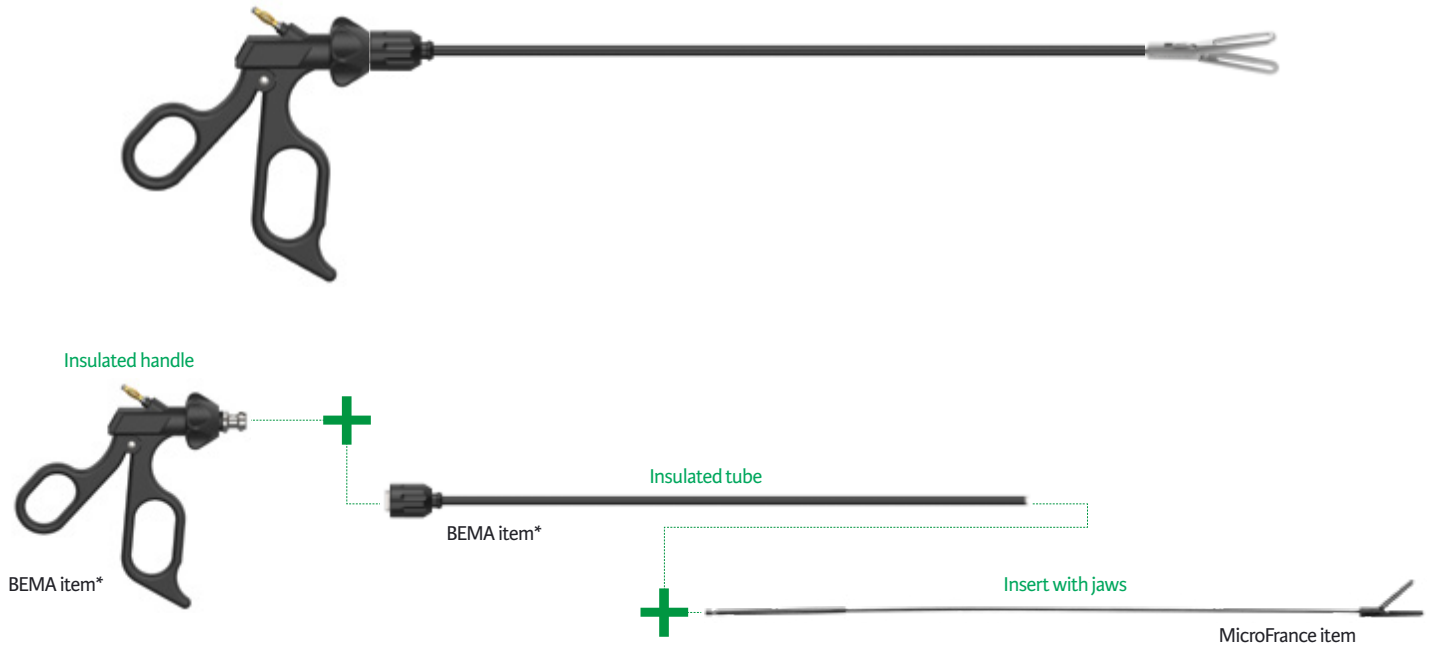

Integra®'s Laparoscopic Monopolar Range

The 5mm Laparoscopic Monopolar instrument consists of an insulated handle and shaft, with an extensive variety of MicroFrance inserts with jaws that suit all complex minimally invasive procedures.

Our approach of combining high quality MicroFrance jaws with safe insulated handles and shafts, allows superior and reliable performance without the risk of burning injuries in a complete reusable format.

The range is available for instruments with a diameter of 5mm in pediatric, standard and bariatric lengths. Shafts and inserts will accommodate up to 3 different types of rotatable insulated handles; with internal ratchet, long ratchet and without ratchet to suit all preferences and applications

*Distributed by Integra MicroFrance SAS

300-1MF-0084*
Insulated angled rotatable handle without ratchet

300-1MF-0082*
Insulated angled rotatable handle with long ratchet

300-1MF-0085*
Insulated angled rotatable handle with internal ratchet

300-1MF-2105* Insulated tube Diam 5mm L 210mm

300-1MF-3305* Insulated tube Diam 5mm, L 310mm

300-1MF-4105* Insulated tube diam 5mm, L 410mm
